

## 2019 QATAR MANATEQ BAJA

### Info #1 (11.08.2019)

The 5<sup>th</sup> round of 2019 Manateq Qatar National Baja will be held on 11/12 October and will offer a 150 km route designed in Central Qatar using clear tracks defined by a precise road book.

The respect of the rally itinerary and particularly the passage by a certain number of waypoints will be controlled by GPS tracker.

The FIA will implement a new road book format and a new English lexicon for the events counting for the 2020 FIA World Cup for Cross-Country Rallies.

Anticipating its release on the World Cup, the new FIA road book format will be used by QMMF for the 5<sup>th</sup> round of Manateq Qatar National Baja, giving the crews an opportunity to get used to this new model a few months before its launch in international cross-country rallies.

The supplementary regulations of the 5<sup>th</sup> round of 2019 Manateq Qatar National Baja will be issued on early September.
